Sumeet Ishwar Salunke

Entry-Level Full Stack Developer

GitHub: https://github.com/Vidhan4444 | LinkedIn: https://www.linkedin.com/in/sumeet-salunke-052070325 | India

Professional Summary

Entry-level Full Stack Developer with hands-on experience building web applications using React, Node.js, and MongoDB. Experienced in real-world projects and hackathons, focusing on backend logic, API integrations, and problem solving. Actively strengthening backend design skills, logical thinking, and system-level understanding to prepare for industry-ready roles.

Technical Skills

Frontend: React, HTML, CSS
Backend: Node.js, Express.js, MongoDB
Programming: Java, Python
Tools & Platforms: Git, GitHub, VS Code, Postman, MongoDB Atlas

Projects

Reminder App | React, Node.js, MongoDB
• Built a full-stack reminder app with email notifications
• Learned backend integration, environment variables, and deployment issues

Portfolio & Resume Generator | HTML, CSS, Node.js, MongoDB
• Developed a system to generate portfolios and resumes using templates
• Implemented backend form handling and database integration

Voice-Based Assistant | Python, SpeechRecognition, pyttsx3
• Built a voice-controlled assistant to execute predefined tasks
• Gained experience in audio processing and command parsing

Hackathons & Participations

Hackvyuha 2025 — Frontend Developer
• Worked on UI implementation

Inventra 2025 — Backend Developer
• Contributed to backend logic building

Innorise 2025 — Backend Developer
• Integrated Hugging Face models and Public Health APIs

Certifications

React & Redux (Knowledge Gate), Backend Development – Node.js, Express & MongoDB (Knowledge Gate), Artificial Intelligence (NPTEL), HTML Fundamentals, Java Programming & OOPS (Great Learning)
